Author Index Volume 133

Addicks, K., see Michel, O. (133) 1
Alonto, A., see Lysakowski, A. (133) 149

Bloch, W., see Michel, O. (133) 1

Crisanti, P., see Lecain, E. (133) 133

Dickman, J.D., see Dye, B.J. (133) 17
Doi, T., see Matsuda, K. (133) 10
Dye, B.J., Frank, T.C., Newlands, S.D. and Dickman, J.D.
Distribution and time course of hair cell regeneration in the pigeon utricle (133) 17

Evans, E.F., see Morse, R.P. (133) 107, 120

Frank, T.C., see Dye, B.J. (133) 17

Guinan Jr., J.J., see Wiener-Vacher, S.R. (133) 139

Haruta, A., see Matsuda, K. (133) 10
Hemilä, S., see Nummela, S. (133) 61,71
Hemilä, S., Nummela, S. and Reuter, T.
A model of the odontocete middle ear (133) 82
Hess, A., see Michel, O. (133) 1
Holmberg, P., see Nummela, S. (133) 61

Jacobson, L., see Lysakowski, A. (133) 149

Kazee, A.M. and West, N.R.
Preservation of synapses on principal cells of the central nucleus of the inferior colliculus with aging in the CBA mouse (133) 98
Kobler, J.B., see Wiener-Vacher, S.R. (133) 139
Komune, S., see Matsuda, K. (133) 10

Lecain, E., Sauvaget, E., Crisanti, P., Van Den Abbeele, T. and Tran Ba Huy, P.
Potassium channel ether à go-go mRNA expression in the spiral ligament of the rat (133) 133
Li, L., Parkins, C.W. and Webster, D.B.
Does electrical stimulation of deaf cochleae prevent spiral ganglion degeneration? (133) 27
Lonsbury-Martin, B.L., see Mom, T. (133) 40
Lysakowski, A., Alonto, A. and Jacobson, L.
Peripherin immunoreactivity labels small diameter vestibular 'bouton' afferents in rodents (133) 149

Martin, G.K., see Mom, T. (133) 40
Matsuda, K., Ueda, Y., Doi, T., Tono, T., Haruta, A., Toyama, K. and Komune, S.
Increase in glutamate-aspartate transporter (GLAST) mRNA during kanamycin-induced cochlear insult in rats (133) 10
Michel, O., Hess, A., Bloch, W., Stennert, E., Su, J. and Addicks, K.
Localization of the NO/cGMP-pathway in the cochlea of guinea pigs (133) 1
Mom, T., Telischi, F.F., Martin, G.K. and Lonsbury-Martin, B.L.
Measuring the cochlear blood flow and distortion-product otoacoustic emissions during reversible cochlear ischemia: a rabbit model (133) 40
Morse, R.P. and Evans, E.F.
Additive noise can enhance temporal coding in a computational model of analogue cochlear implant stimulation (133) 107
Morse, R.P. and Evans, E.F.
Preferential and non-preferential transmission of formant information by an analogue cochlear implant using noise: the role of the nerve threshold (133) 120

Newlands, S.D., see Dye, B.J. (133) 17
Norris, B.E., see Wiener-Vacher, S.R. (133) 139
Nummela, S., see Hemilä, S. (133) 82
Nummela, S., Reuter, T., Hemilä, S., Holmberg, P. and Paukku, P.
The anatomy of the killer whale middle ear (Orcinus orca) (133) 61
Nummela, S., Wägar, T., Hemilä, S. and Reuter, T.
Scaling of the cetacean middle ear (133) 71

O'Beirne, G.A., see Patuzzi, R.B. (133) 155
Ogata, Y., Slepecky, N.B. and Takahashi, M.
Study of the gerbil utricular macula following treatment with gentamicin, by use of bromodeoxyuridine and calmodulin immunohistochemical labelling (133) 53

Parkins, C.W., see Li, L. (133) 27
Patuzzi, R.B. and O'Beirne, G.A.
Boltzmann analysis of CM waveforms using virtual instrument software (133) 155
Paukku, P., see Nummela, S. (133) 61

Reuter, T., see Hemilä, S. (133) 82
Reuter, T., see Nummela, S. (133) 61, 71

Sauvaget, E., see Lecain, E. (133) 133
Slepecky, N.B., see Ogata, Y. (133) 53
Stennert, E., see Michel, O. (133) 1
Su, J., see Michel, O. (133) 1

Takahashi, M., see Ogata, Y. (133) 53
Telischi, F.F., see Mom, T. (133) 40
Tono, T., see Matsuda, K. (133) 10
Toyama, K., see Matsuda, K. (133) 10
Tran Ba Huy, P., see Lecain, E. (133) 133

Ueda, Y., see Matsuda, K. (133) 10

Van Den Abbeele, T., see Lecain, E. (133) 133

Wägar, T., see Nummela, S. (133) 71
Webster, D.B., see Li, L. (133) 27
West, N.R., see Kazee, A.M. (133) 98
Wiener-Vacher, S.R., Guinan Jr., J.J., Kobler, J.B. and Norris, B.E.
Motoneuron axon distribution in the cat stapedius muscle (133) 139

Hearing Research 133 (1999) 161–163

HEARING RESEARCH

Subject Index Volume 133

Acoustic reflex
Middle-ear muscle; Motor control; Motor unit size (Wiener-Vacher, S.R. (133) 139)

Acoustics
Impedance matching; Hearing sensitivity; Audiogram; Mammal (Hemilä, S. (133) 82)

Aging
Hearing; Presbycusis; Inferior colliculus; Morphometry (Kazee, A.M. (133) 98)

Allometry
Hearing; Bone density; Isometry; Tympanic bulla; Ossicle; Whale (Nummela, S. (133) 71)

Audiogram
Impedance matching; Hearing sensitivity; Acoustics; Mammal (Hemilä, S. (133) 82)

Auditory brainstem response
Cochlear implant; Electrical stimulation; Inferior colliculus electrically evoked response; Cochlear histology; Spiral ganglion neuron; Rosenthal's canal (Li, L. (133) 27)

Boltzmann function
Cochlear microphonic; Virtual instrument analysis (Patuzzi, R.B. (133) 155)

Bone density
Hearing; Isometry; Allometry; Tympanic bulla; Ossicle; Whale (Nummela, S. (133) 71)

cGMP
Nitric oxide; NO synthase; Soluble guanylyl cyclase; Cochlea; Neurotransmission; Cochlear amplifier (Michel, O. (133) 1)

Chinchilla
Semicircular canal; Crista ampullaris; Macula; Otolith; Utriculus; Sacculus; Scarpa's ganglion; Mouse; Rat (Lysakowski, A. (133) 149)

Cochlea
Nitric oxide; NO synthase; cGMP; Soluble guanylyl cyclase; Neurotransmission; Cochlear amplifier (Michel, O. (133) 1)

Glutamate-aspartate transporter; Glutamate; Kanamycin; Northern hybridization; Neurotoxicity (Matsuda, K. (133) 10)

K^+ channel; *Ether à go-go*; Rat; Reverse transcription-PCR; In situ hybridization (Lecain, E. (133) 133)

Nitric oxide; NO synthase; cGMP; Soluble guanylyl cyclase; Cochlea; Neurotransmission (Michel, O. (133) 1)

Cochlear blood flow
Laser-Doppler flowmetry; Reversible cochlear ischemia; Distortion product otoacoustic emission; Rabbit (Mom, T. (133) 40)

Cochlear histology
Cochlear implant; Electrical stimulation; Auditory brainstem response; Inferior colliculus electrically evoked response; Spiral ganglion neuron; Rosenthal's canal (Li, L. (133) 27)

Cochlear implant
Electrical stimulation; Auditory brainstem response· Inferior colliculus electrically evoked response; Cochlear histology; Spiral ganglion neuron; Rosenthal's canal (Li, L. (133) 27)

Speech coding; Frankenhauser-Huxley model; Stochastic resonance; Temporal coding; Noise (Morse, R.P. (133) 107)

Speech coding; Linearization; Stochastic resonance; Noise (Morse, R.P. (133) 120)

Cochlear microphonic
Boltzmann function; Virtual instrument analysis (Patuzzi, R.B. (133) 155)

Computer tomography
Dolphin; Odontoceti; Underwater hearing (Nummela, S. (133) 61)

Crista ampullaris
Semicircular canal; Macula; Otolith; Utriculus; Sacculus; Scarpa's ganglion; Chinchilla; Mouse; Rat (Lysakowski, A. (133) 149)

Distortion product otoacoustic emission
Cochlear blood flow; Laser-Doppler flowmetry; Reversible cochlear ischemia; Rabbit (Mom, T. (133) 40)

Dolphin
Computer tomography; Odontoceti; Underwater hearing (Nummela, S. (133) 61)

Electrical stimulation
Cochlear implant; Auditory brainstem response; Inferior colliculus electrically evoked response; Cochlear histology; Spiral ganglion neuron; Rosenthal's canal (Li, L. (133) 27)

Ether à go-go
K^+ channel; Rat; Cochlea; Reverse transcription-PCR; In situ hybridization (Lecain, E. (133) 133)

Frankenhauser-Huxley model
Cochlear implant; Speech coding; Stochastic resonance; Temporal coding; Noise (Morse, R.P. (133) 107)

Glutamate
Glutamate-aspartate transporter; Cochlea; Kanamycin; Northern hybridization; Neurotoxicity (Matsuda, K. (133) 10)

Glutamate; Cochlea; Kanamycin; Northern hybridization; Neurotoxicity (Matsuda, K. (133) 10)

Hair cell
Regeneration; Vestibular; Ototoxicity (Dye, B.J. (133) 17)

Hearing
Bone density; Isometry; Allometry; Tympanic bulla; Ossicle; Whale (Nummela, S. (133) 71)

Aging; Presbycusis; Inferior colliculus; Morphometry (Kazee, A.M. (133) 98)

Impedance matching; Audiogram; Acoustics; Mammal (Hemilä, S. (133) 82)

Impedance matching
Hearing sensitivity; Audiogram; Acoustics; Mammal (Hemilä, S. (133) 82)

In situ hybridization
K^+ channel; *Ether à go-go*; Rat; Cochlea; Reverse transcription-PCR (Lecain, E. (133) 133)

Inferior colliculus
Hearing; Aging; Presbycusis; Morphometry (Kazee, A.M. (133) 98)

Cochlear implant; Electrical stimulation; Auditory brainstem response; Cochlear histology; Spiral ganglion neuron; Rosenthal's canal (Li, L. (133) 27)

Isometry
Hearing; Bone density; Allometry; Tympanic bulla; Ossicle; Whale (Nummela, S. (133) 71)

K^+ channel
Ether à go-go; Rat; Cochlea; Reverse transcription-PCR; In situ hybridization (Lecain, E. (133) 133)

Kanamycin
Glutamate-aspartate transporter; Glutamate; Cochlea; Northern hybridization; Neurotoxicity (Matsuda, K. (133) 10)

Laser-Doppler flowmetry
Cochlear blood flow; Reversible cochlear ischemia; Distortion product otoacoustic emission; Rabbit (Mom, T. (133) 40)

Linearization
Cochlear implant; Speech coding; Stochastic resonance; Noise (Morse, R.P. (133) 120)

Macula
Semicircular canal; Crista ampullaris; Otolith; Utriculus; Sacculus; Scarpa's ganglion; Chinchilla; Mouse; Rat (Lysakowski, A. (133) 149)

Mammal
Impedance matching; Hearing sensitivity; Audiogram; Acoustics (Hemilä, S. (133) 82)

Middle-ear muscle
Acoustic reflex; Motor control; Motor unit size (Wiener-Vacher, S.R. (133) 139)

Morphometry
Hearing; Aging; Presbycusis; Inferior colliculus (Kazee, A.M. (133) 98)

Motor control
Acoustic reflex; Middle-ear muscle; Motor unit size (Wiener-Vacher, S.R. (133) 139)

Motor unit size
Acoustic reflex; Middle-ear muscle; Motor control (Wiener-Vacher, S.R. (133) 139)

Mouse
Semicircular canal; Crista ampullaris; Macula; Otolith; Utriculus; Sacculus; Scarpa's ganglion; Chinchilla; Rat (Lysakowski, A. (133) 149)

Neurotoxicity
Glutamate-aspartate transporter; Glutamate; Cochlea; Kanamycin; Northern hybridization (Matsuda, K. (133) 10)

Neurotransmission
Nitric oxide; NO synthase; cGMP; Soluble guanylyl cyclase; Cochlea; Cochlear amplifier (Michel, O. (133) 1)

Nitric oxide
NO synthase; cGMP; Soluble guanylyl cyclase; Cochlea; Neurotransmission; Cochlear amplifier (Michel, O. (133) 1)

NO synthase
Nitric oxide; cGMP; Soluble guanylyl cyclase; Cochlea; Neurotransmission; Cochlear amplifier (Michel, O. (133) 1)

Noise
Cochlear implant; Speech coding; Frankenhauser-Huxley model; Stochastic resonance; Temporal coding (Morse, R.P. (133) 107)

Cochlear implant; Speech coding; Linearization; Stochastic resonance (Morse, R.P. (133) 120)

Northern hybridization
Glutamate-aspartate transporter; Glutamate; Cochlea; Kanamycin; Neurotoxicity (Matsuda, K. (133) 10)

Odontoceti
Computer tomography; Dolphin; Underwater hearing (Nummela, S. (133) 61)

Ossicle
Hearing; Bone density; Isometry; Allometry; Tympanic bulla; Whale (Nummela, S. (133) 71)

Otolith
Semicircular canal; Crista ampullaris; Macula; Utriculus; Sacculus; Scarpa's ganglion; Chinchilla; Mouse; Rat (Lysakowski, A. (133) 149)

Ototoxicity
Regeneration; Vestibular; Hair cell (Dye, B.J. (133) 17)

Presbycusis
Hearing; Aging; Inferior colliculus; Morphometry (Kazee, A.M. (133) 98)

Rabbit
Cochlear blood flow; Laser-Doppler flowmetry; Reversible cochlear ischemia; Distortion product otoacoustic emission (Mom, T. (133) 40)

Rat
Semicircular canal; Crista ampullaris; Macula; Otolith; Utriculus; Sacculus; Scarpa's ganglion; Chinchilla; Mouse (Lysakowski, A. (133) 149)

K^+ channel; *Ether à go-go*; Cochlea; Reverse transcription-PCR; In situ hybridization (Lecain, E. (133) 133)

Regeneration
Vestibular; Hair cell; Ototoxicity (Dye, B.J. (133) 17)

Reverse transcription-PCR
K^+ channel; *Ether à go-go*; Rat; Cochlea; In situ hybridization (Lecain, E. (133) 133)

Reversible cochlear ischemia
Cochlear blood flow; Laser-Doppler flowmetry; Distortion product otoacoustic emission; Rabbit (Mom, T. (133) 40)

Rosenthal's canal
Cochlear implant; Electrical stimulation; Auditory brainstem response; Inferior colliculus electrically evoked response; Cochlear histology; Spiral ganglion neuron (Li, L. (133) 27)

Sacculus
Semicircular canal; Crista ampullaris; Macula; Otolith; Utriculus; Scarpa's ganglion; Chinchilla; Mouse; Rat (Lysakowski, A. (133) 149)

Scarpa's ganglion
Semicircular canal; Crista ampullaris; Macula; Otolith; Utriculus; Sacculus; Chinchilla; Mouse; Rat (Lysakowski, A. (133) 149)

Semicircular canal
Crista ampullaris; Macula; Otolith; Utriculus; Sacculus; Scarpa's ganglion; Chinchilla; Mouse; Rat (Lysakowski, A. (133) 149)

Soluble guanylyl cyclase
Nitric oxide; NO synthase; cGMP; Cochlea; Neurotransmission; Cochlear amplifier (Michel, O. (133) 1)

Speech coding
Cochlear implant; Frankenhauser-Huxley model; Stochastic resonance; Temporal coding; Noise (Morse, R.P. (133) 107)

Cochlear implant; Linearization; Stochastic resonance; Noise (Morse, R.P. (133) 120)

Spiral ganglion neuron
Cochlear implant; Electrical stimulation; Auditory brainstem response; Inferior colliculus electrically evoked response; Cochlear histology; Rosenthal's canal (Li, L. (133) 27)

Stochastic resonance
Cochlear implant; Speech coding; Frankenhauser-Huxley model; Temporal coding; Noise (Morse, R.P. (133) 107)

Cochlear implant; Speech coding; Linearization; Noise (Morse, R.P. (133) 120)

Temporal coding
Cochlear implant; Speech coding; Frankenhauser-Huxley model; Stochastic resonance; Noise (Morse, R.P. (133) 107)

Tympanic bulla
Hearing; Bone density; Isometry; Allometry; Ossicle; Whale (Nummela, S. (133) 71)

Underwater hearing
Computer tomography; Dolphin; Odontoceti (Nummela, S. (133) 61)

Utriculus
Semicircular canal; Crista ampullaris; Macula; Otolith; Sacculus; Scarpa's ganglion; Chinchilla; Mouse; Rat (Lysakowski, A. (133) 149)

Vestibular
Regeneration; Hair cell; Ototoxicity (Dye, B.J. (133) 17)

Virtual instrument analysis
Cochlear microphonic; Boltzmann function (Patuzzi, R.B. (133) 155)

Whale
Hearing; Bone density; Isometry; Allometry; Tympanic bulla; Ossicle (Nummela, S. (133) 71)
